To: The Elected Representatives of the People of Central Illinois

We the undersigned residents of Central Illinois oppose the proposed dumping of PCB's at the Clinton Landfill. We are satisfied that it is an unnecessary threat to the irreplaceable water in the Mahomet Aquifer and that other less threatening options exist. The plan submitted is unacceptable on its face, not adequately researched, and contains no provision for leakage.

This petition is circulated by W.A.T.C.H. who can be contacted at 17185 Parnell Rd., DeWitt, Il. 61735 (309) 928-2413. Further information is available at www.watchclintonlandfill.com.
