Dear Sir or Madam,

I oppose the proposed dumping of PCB's at the Clinton Landfill. I am satisfied that it is an unnecessary threat to the irreplaceable water in the Mahomet Aquifer and that other less threatening options exist. The plan submitted is unacceptable on its face, not adequately researched, and contains no provision for leakage.

This is a huge public safety issue in our area and I find your lack of effective actions to block this inexcusable and will remember it and point it out to others at election time.
